Journal of volcanology and geothermal research

Contents Volume 61, 1994

Research Papers

Mechanisms of differentiation in shallow mafic alkaline intrusions, as illustrated in the Big Bend area, western Texas
M.F. Carman Jr. 1

Surface degassing and modifications to vesicle size distributions in active basalt flows
K.V. Cashman, M.T. Mangan and S. Newman 45

Computer simulations of the Tuscolano Artemisio's second pyroclastic flow unit (Alban Hills, Latium, Italy)
G. Giordano and F. Dobran 69

The role of fractional crystallisation, crustal melting and magma mixing in the petrogenesis of rhyolites and mafic inclusion-bearing dacites from the Monte Arci volcanic complex (Sardinia, Italy)
A. Montanini, M. Barbieri and F. Castorina 95

Special Issue

Internal Structure of Volcanoes and Geophysical Precursors of Eruptions, edited by D.P. Hill, P. Gasparini, S. McNutt and H. Rymer

Preface III

The Yellowstone hotspot
R.B. Smith and L.W. Braile 121

The deep structure of the Eolian arc (Filicudi–Panarea–Vulcano sector) in light of gravity, magnetic and volcanological data
F. Barberi, A. Gandino, A. Gioncada, P. La Torre, A. Sbrana and C. Zenucchini 189

Development of a subvolcanic structure by the interaction of liquid-filled cracks
A. Takada 207

The 1989–1990 seismic swarm in the Alban Hills volcanic area, central Italy
A. Amato, C. Chiarabba, M. Cocco, M.d. Bona and G. Selvaggi 225

Volcanic tremor wave field during quiescent and eruptive activity at Mt. Etna (Sicily)
D. Ereditato and G. Luongo 239

The role of regional tectonics, magma pressure and gravitational spreading in earthquakes of the eastern sector of Mt. Etna volcano (Italy)
G. Patanè, A. Montalto, S. Imposa and S. Menza 253

The global positioning system as a useful technique for measuring ground deformations in volcanic areas
G. Nunnari and G. Puglisi 267

Observed ground deformation at Hekla, Iceland prior to and during the eruptions of 1970, 1980–1981 and 1991
E. Tryggvason 281

Gravity changes induced by height–mass variations at the Campi Flegrei caldera
G. Berrino 293

Microgravity change as a precursor to volcanic activity
H. Rymer 311
